

**MOTOROLA**

**Date:** November 28, 2007

**Subject:** Request for additional information regarding FCC ID: IHDT56GN1 class II permissive change

**Reference:**

Correspondence Reference Number:	IHD7979
Confirmation Number:	711210979
Date of Original Email:	November 26, 2007

**Prepared by:**

Andrew Bachler, Principal Staff Engineer  
Motorola Mobile Device Business  
Libertyville, Illinois

Questions and responses follow:

1. Please provide body SAR data using the body-worn accessory provided with the EUT (it was present during the head SAR tests).

**Response:** The body-worn testing (voice) was done at 15 mm away from the flat phantom. The VLIZR01 case has no metallic composition and places the entire handset at a distance further than 15 mm from the flat phantom. Therefore body-worn accessory testing is not required.

2. Please provide photos of the modified PCB's, as well as a STC request for the photos, if so desired.

**Response:** Please refer to exhibit 9A. Short term confidentiality is not requested.
