Supplement to SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56GX1)

Prepared by:

Paul Ma

Motorola Mobile Devices Product Safety Laboratory

Libertyville, Illinois

Summary of FCC request for additional information

There was a request for additional information regarding Motorola's SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56GX1). The requested information is addressed below in the same numbering sequence received.

3. The body SAR test setup photo in exhibit 7A page 5 appears to show a holster but there appears to be no data specified for this configuration. Please clarify.

Response:

The photo for bodyworn testing without case and holster is shown below.
