Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. Thank you for your email. Regarding your response to question 2, PAR plots were submitted for PCS GSM and PCS WCDMA emissions. PCS EDGE, however, was not addressed. Are the PCS EDGE EIRP measurements peak? If not, then a plot demonstrating the compliance of PCS EDGE with the 13 dB PAR limit must also be submitted (the FCC requires a PAR plot for every modulation type, regardless of output power).

**Response:** Please refer to the revised EMC PAR report submitted online.

2. FYI: the information submitted in response to questions 4 and 5 should be submitted with every MPE report.

**Response:** We will include all required info in the MPE reports in the future.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
