**Subject: Application for Certification of transmitter with FCC ID: IHDT56NL2, PCS Handsets, with Bluetooth.**

Gentlemen;

Motorola Mobility, Inc.; 8000 W. Sunrise Blvd.; Plantation, FL 33322 herein submits its application for certification of the multi-mode handset with FCC ID: **IHDT56NL2**.

The primary transceiver in this composite device operates in the 800 MHz Specialized Mobile Radio (SMR) Service, the 850 MHz Public Mobile Service (PMS), and the 1900 MHz Personal Communications Service (PCS). It supports CDMA signaling, and employs CDMA 1X and EV-DO operating capabilities.

**Note:**

This device also contains functions, and operates within frequency bands, that are not authorized within the United States or its territories. This filing is only applicable to supported US operations.

This mobile device is also equipped with an LTE transceiver. LTE supports high-speed wireless data communications. This device is a Band 25 LTE transceiver, operating between 1850 and 1915 MHz, with channels of up to 10 MHz in bandwidth. The LTE device complies Part 24 (Subpart E), 15.205 and 15.209 (b).

This radio product is also equipped with a Wi-Fi (802.11b/g/n) transceiver. Wi-Fi supports both voice and data for short-range wireless communications. The Wi-Fi Band of Operation is 2.412 - 2.462 GHz. The Wi-Fi device complies 15.247 (c), 15.205 and 15.209 (b).

This radio product is equipped with a Bluetooth (BT) transceiver. BT supports both voice and data for short-range wireless communications. The Bluetooth Band of Operation is 2.4 - 2.4835 GHz (1 MHz channel bandwidth). The BT device complies with the requirements of FCC Rule Parts 15.247 (c), 15.205 and 15.209 (b).

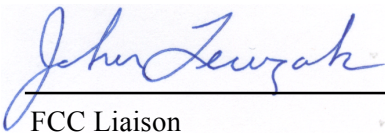

This product also supports NFC operation as a low-power itinerant transmitter.

All transmitters contained in this radio product have been subjected to routine environmental evaluation (as applicable) according to 47 CFR Part 2.1093 (c) for RF exposure and found to be compliant with the limits specified in 47 CFR 2.1093(d)(2).

This radio product features an integrated GPS receiver, and is designed to function as a computer peripheral device when functioning as an RF modem, while connected to a computer via a data cable, as described in 47 CFR Part 15.3(r). A Part 15B test report is included for certification.

Enclosed is a complete Certification Application. Contact me at (954) 723-6272 if you require any additional information.

Regards,

---
