

Appendix D. Spot Check Evaluation

1. Introduction Section

This report referenced from the FCC ID: IHDT56WA1
(DTS, DSS and U-NII)

The applicant takes full responsibility that the test data as referenced in this report represent compliance for this FCC ID (FCC ID: IHDT56WA3).

2. Difference Section

The WLAN (DTS, U-NII) and Bluetooth SAR measurement results from the original filling can be found in SAR test report FCC ID: IHDT56WA1, Sporton Report No: FA720310 or appendix E.

The WLAN antennas and surrounding circuitry is the same between these two devices, and tune up power targets are identical for WLAN operations; Therefore SAR data for WLAN form the original filling was used for this model and spot checks for WLAN were performed to ensure that the SAR measurements for both devices are the same, for details of similarity and difference between these two devices which can be found in the Operating Description.

The product specification is outlined in the following table:
