

FCC e-Label Information

A] e-Label Rendering

Below is a representation of the e-label to be implemented for device FCC ID IHDT56XM1. Actual final format and model number may differ.

B] e-Label Access

Users are able to access the regulatory information in no more than three steps from the device menu.

To access from the device menu select: **Settings > System > Regulatory information**

No special accessories, access codes or SIM card are required to access the e-Label via steps provided above.

C] Physical label

As this device utilizes e-labeling, a physical temporary label is also required on the product, or a label on the packaging, at the time of importation, marketing, and sales.

Motorola confirms that at the time of importation, marketing and sale the device will have the required physical label on the packaging, which will include the device's FCC ID.

D] e-Label Programming Security

Electronic labelling information is programmed into the device by the manufacturer at the time of manufacture and is not modifiable by any 3rd party.

Motorola confirms that the e-Label is programmed only at the time of manufacture by Motorola and is secure in such a manner that it cannot be modified by 3rd party entities.

E] Regulatory Information

All applicable regulatory information not found in the e-Label is contained within the device user manual and legal inserts.

This additional safety and regulatory information may also be accessed via the device menu:

Settings > System > Legal information
