Supplement to SAR Test Report for Motorola portable cellular phone (FCC ID IHDT6EP1)

Prepared by:

Albert Patapack

Motorola Personal Communications Sector Product Safety Laboratory

Libertyville, Illinois

Summary of FCC request for additional information

There was a request for additional information regarding Motorola's SAR Test Report for Motorola portable cellular phone (FCC ID IHDT6EP1). The requested information is addressed below in the same numbering sequence received.

2. A device in the SAR report (p.4) is listed as being past its cal due date. Please address.

**Response:** A review of the tables on page 4 of the SAR test report shows that none of the listed equipment is past its cal due date. All of the listed equipment have cal due dates in the year 2005 except for the network analyzer which has a cal due date of 10/29/2004. Since all of the testing was performed on 10/13/2004, the network analyzer was within its calibration window. If there is something that is being missed by Motorola in this matter, please send another request with clarifying information.
