Dear Andy,

Thank you for your response to the referenced application. Please see below follow-up question pertaining to your submittal.

Follow-Up RT:

1. We note, however, that the user's manual still does not contain the information required by Sections 15.21 and 15.105. In addition, the max body SAR level listed in the manual is incorrect. Please make these additions/corrections and resubmit the manual.

Response: Please refer to the revised User Manual Supplement attached which contains FCC Notice required by Section 15.21, 15.19(3) and 15.105(b). We also updated body SAR value as required.

2. The Operational Description submitted for the Bluetooth transmitter is lacking in detail. Please submit a more comprehensive Operational Description (technical description) of the Frequency Hopping transmitter.

Response: Please refer to the revised Operational Description attached to reflect the detail technical description of the BT transmitter.

The items indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,
Gregory Czumak
Senior Certification Engineer

Quality Manager
