主旨:

Motorola Mobility, Inc. , //IHDT6MV1 //AN11T0687

i, Daphne,

Please address following issues.

Q#1: According to the user manual and block diagram, this headset has NFC module included but nothing documented it in this filing. Please clarify that function of NFC. Is it a passive or active tag? Please provide an updated operational description to include the operation of the NFC.
Be noted that if it is active tag, then it is subject to FCC certification process.

ANS: 1) Please find the updated OPD(1000920) of page 2 .

2) This NFC tag in both BT headset and charging case is passive tag, meaning that it does not require any power supply from the host in order to operate

Q#2: Please clarify where the label is affixed to: ear ring or ear ring cover. If it is on ear ring cover, it is not acceptable because it is removable.

ANS: Please find the updated label. It is on the earphone ear ring, not ear ring cover.

Best Regards,

Lucy Tsai/UL CCS

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture

of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender. Revised documentation should not be emailed, but instead should be submitted through "Add Attachment?function at the UL-CCS website. Please have your Assessment Number and FCC ID/IC Certification number handy. You may use the following link: <https://cert.cesemc.com/filing/>
