Regulatory markings	12
Safety, Regulatory & Legal	13

Caution: Before using your device, please read the safety, regulatory and legal information at the back of this guide.

Note: Your battery is designed to last the life of the product. It should only be removed by a recycling facility. Any attempt to remove or replace your battery may damage the product and void your warranty.

Assemble

let's get going

Headband

Remote cable with microphone

Power supply

Carry case

Left (L)
marker

Right (R)
marker

Sound engines

Important: Insert the right (R) and left (L) headband in to the corresponding sound engine.

Note: To get the best call performance from your headset, ensure that the right (R) and left (L) sound engines are placed over the corresponding ears.

Connect & go

let's get you connected

Easypair™ method

1

Turn on Bluetooth on your device.

2

Turn on your headset and follow the voice prompts.

3

Go to the Bluetooth menu on your device to pair & connect with the headset. Enter passcode **0000** if prompted.

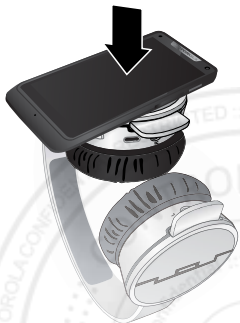

4

When the device and headset connect, you'll hear "**device 1 connected**".

NFC

Use Near Field Communication (NFC) technology to pair your headset and device just by touching them together.

- 1 Turn on Bluetooth and NFC on your device.
- 2 Turn on your headset.
- 3 Tap the device (display must be on) on the top of the right (R) sound engine. The device notifies you when pairing is complete.

Notes:

- Your device must support NFC Bluetooth pairing. If you can't use NFC with your device, use the **"Easypair™ method"** on page 4 to connect your headset and device.
- NFC reader location and functionality may vary between devices. See your device user's guide for details.

Use NFC with your headset to:

- Tap to pair

- Tap to audio transfer

Multi-point connection

Your headset will allow a new device to connect as long as only one device is connected, multi-point is enabled, and the headset does not have call activity.

Wired mode

If you'd prefer to stay wired up, use the Remote Cable with Microphone to create a wired connection.

Insert the right (R) and left (L) Remote Cable with Microphone in to the corresponding sound engine.

Note: To save your battery, the Bluetooth connection will switch off when you're in wired mode.

Basics

standard features, advanced quality

Music

To...	
play/pause music	Press the Music/Call button once.
skip to next track	Press the Music/Call button two times.
skip to previous track	Press the Music/Call button three times.

Calls

To...	
answer a call	Press the Music/Call button.
reject a call	Press and hold a Volume button until you hear a tone.
make a voice dial call	Press and hold the Music/Call button until you hear a tone.
mute or unmute a call	Press and hold both Volume buttons at the same time until you hear “mute on” or “mute off”.

To...	
end a call	Press the Music/Call button.
answer second incoming call	Press the Music/Call button.
reject second incoming call	Use the phone keypad to reject a second incoming call.
hear remaining music play time	Press Volume buttons while in standby.

Note: Some features are phone/network dependent.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

Advanced

more clever stuff

Second device?

Do you use two phones? Or maybe a tablet and a phone?

We've got you covered:

- See **“Connect & go”** on page 4 to pair the second device.
- Once paired, to connect to both devices simply turn them on.

Calls

Follow the voice prompts for features such as voice dial, answer call, and end call.

Music

Select a music source to listen to by streaming music from that phone. To switch to the other phone for music, just start streaming music from that phone.

Note: Your headset will only stream one music connection at a time.

Notification light

An easy way to check your headset.

If light shows...	your headset is...
blue flash	turning on and in pairing mode
steady blue	connected to your device(s)

If light shows...	your headset is...
red flash	in a low battery state
fading blue	turning off

Settings

Press and hold the Power and Music/Call buttons together to hear settings. Follow the voice prompts to change them:

- Factory reset

Caution: Reset erases all paired devices stored in your headset.

- Voice interface on/off
- Multi-point on/off
- Wideband audio on/off
