

Exhibit 1: Identification Label -- Pursuant to 47 CFR 2.925 and 2.1033(c)(11); and RSP100, Section 5 and RSS Gen, Section 5.2.

1.1 Location

The regulatory information will appear on the bottom (back) side of the device, pad-printed onto the housing (see Figure 1.3.2, and also Exhibit 3).

1.2 Type

The label will be pad printed onto the bottom of the device housing.

1.3 Markings (Text)

The FCC label shown is representative of the label that will appear on the radio when in production.

Figure 1.3.1. Representation of FCC Label information.

The above label representation is applicable to the following versions/variants of the device that is the subject of this application:

Model Number¹	
¹ Depending upon the device version, or market into which it ships, the Model Number shown on the label may vary. All such variants will be electrically identical, consistent with the requirements of FCC Class I Permissive Change rules and guidance (47 CFR 2.1043 and KDB 178919 D01).	

This label will be placed on the equipment (within the Battery Compartment) as shown below. Other information may also be included on this label, and other labels may also be present.

This information will be permanently etched onto the equipment rear cover as shown below, and in Exhibit 3. Other information may also be present.

Bottom of Device

Figure 1.3.2. Location of FCC Label (position, orientation, and other information shown may vary).

Please note that this label and its placement complies with the requirement of FCC Rule 47 CFR 2.925(d) that the label be permanently affixed to the product, and be readily visible to the purchaser at the time of purchase.

The product's Market or Trade Name is indelibly printed on the face of the product, as shown in Exhibit 3.
