

ATTESTATION OF COMPLIANCE TESTING

The transceiver type IHDT6YW1 has been tested in accordance with the requirements contained in the appropriate Commission regulations. To the best of my knowledge, these tests were performed using measurement procedures consistent with industry or Commission standards and demonstrate that this equipment complies with the appropriate standards. Each unit manufactured imported or marketed, will conform to the sample tested within the variations that can be expected due to quantity production and testing on a statistical basis. I further certify that the necessary measurements were made at Motorola, located at 600 North U.S. Highway 45, Libertyville, Illinois with the exception of Radiated Spurious Emissions testing which took place at Elite Electronic Engineering Company, located at 1516 Centre Circle, Downers Grove, Illinois.
