Re: Application for Cellular/PCS Transceiver Certification
(Class II Permissive Change)

Application:

Motorola, Inc., Personal Communications Sector, 600 N. U.S. Highway 45, Libertyville, Illinois 60048-1286 herein submits:

- Application for Equipment Authorization (FCC Form 731-October 1992 with integrated Fee Processing Form, Fee Codes EAC),
- application fee in the amount of \$45, and
- SAR Exhibit.

These items are for Class II Permissive Change Certification of Cellular Transceiver, FCC ID: IHDT6ZD1. Motorola is the manufacturer of this equipment.

Description:

This equipment has the capability to operate using the Digital GSM standard in the PCS band.

Motorola intends to market this device in a housing with stylized colors. Although the general appearance of the equipment remains identical to the original product, a change in rf exposure (SAR) was measured. A class 2 permissive change SAR report is submitted to report these changes.

NOTE:

This is a housing color change only, which produced a higher measured SAR value. Only the changed SAR parameters are reported and submitted as an rf exposure exhibit.

Contact Information:

Please contact me by telephone at (847) 523-6167, or by e-mail (A.Bachler@motorola.com), if there are questions or additional information needed concerning this filing.
