FCC Rules: Parts 2 and 80e Class 2 Permissible Change

To Whom It May Concern:

Please find documentation and information supporting application for Class 2 permissible Change of authorized equipment. The equipment hardware remains identical to original filing. This submittal documents only firmware modification to the design providing selection and use of additional channels within the previously authorized frequency band. The firmware update will be made available to equipment currently in use as no hardware modification is required. The form 731 and application have been electronically submitted and any attachments will be up loaded to your web site for use in processing class 2 permissive change grant of certification.

Confidentiality is requested as outlined below.

## **Permanent**

Garmin International, Inc. requests that the material in the **Schematics, Block Diagram, Part List,** and **Operational Description** be withheld from public disclosure pursuant to Sections 0.457 and 0.459 of the Commission's Rules following grant of the application.

A statement of confidentiality will be attached with the application at the time of submittal.
