

December 21, 2012

Michelle Furrow
Project Manager
Nemko USA, Inc.
Lewisville, TX 75057

Dear Michelle:

Subject: Radio Tuning Procedure

The tuning procedure for the radios in the tracking models TK, TKD and TKQ are all performed at the factory. The end user will have no ability to manually tune the radio. All frequencies are pre-set and determined at the factory.

Sincerely,

A handwritten signature in black ink.

Gerry Wells
EMC Principle Engineer
