Re: Modular Approval Request - FCC

FCC ID.: ITQ-TR2I

Product Name: To whom it may concern:

Pursuant to the requirements of DA00-1407 and 996369 "D01 Module Equip Auth Guide v01" for modular approval of Part 15 devices:

Requirement	Comments/Declaration
i. The radio elements must have the radio frequency circuitry shielded. Physical/discrete and tuning capacitors may be located external to the shield, but must be on the module assembly.	All circuitry is contained within a terminated shield, including the tuning capacitors which exist on the radio module.
ii. The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	The module has buffered data inputs.
iii. The module must contain power supply regulation on the module.	The module contains power supply regulation on the module.
iv. The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	The module will be used with one specific antenna.
v. The module must demonstrate compliance in a stand-alone configuration	The module has demonstrated compliance in a stand-alone configuration.
vi. The module must be labeled with its permanently affixed FCC ID label, or use an electronic display	The module shall be labelled with its permanently affixed FCC ID label.
vii. The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements.	The module shall comply with all specific rules applicable to the transmitter. The grantee shall provide an integration guide with comprehensive instructions to explain compliance requirements.
viii. The module must comply with RF exposure requirements.	The module complies with RF exposure requirements.
