Lexmark MarkNet N8052  
Model Number: 4032-852  
Manufactured in China for Lexmark International  
FCC ID: IYLN8052

\*\*\*\*\*

FCC mark shall be generated from a TIF file supplied to the label vendor.

Approval information for other countries where an N8052 with p/n 14T0375 are marketed shall be appended to this label as the appropriate approval numbers and markings are obtained.

Apply the label to the back of the INA card as shown in the image below. Do not obscure any silkscreened text featuring a backwards UL mark.
