RE: Intel / Xircom

FCC ID: J3OWCB5000

I have a few comments on this Application.

- 1.) The file entitled "Install Guide Regulatory 2 of 2" appears to indicate there will be multiple antennas associated with this device. These antennas must be listed and identified by type, and/or part numbers and gain, and included in the RF Exposure information. In addition, the language used is not consistent with FCC requirements for mobile devices.
- 2.) The FCC will not allow the inclusion of internal photographs in Confidentiality requests. Supply revised Confidentiality request.
- 3.) Block diagram does not meet the requirements of 2.1033(b)(5). Please supply a more detailed diagram.

A handwritten signature in black ink, appearing to read "William H. Graff".

William H. Graff
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
