Annex B. Antenna Location

B.1 Antenna Host Platform Location Information

Include a <u>dimensioned photo(s) or dimensioned drawing(s)</u> of Main and Aux antenna placements (measurements are not required for <u>receive-only</u> antenna).

Any antenna that transmits must show dimensions to bottom of laptop. Provide a description of the materials that are used for supporting or surrounding transmit antennas; for example, non-conductive plastics vs. conductive coated plastic or metallic materials.
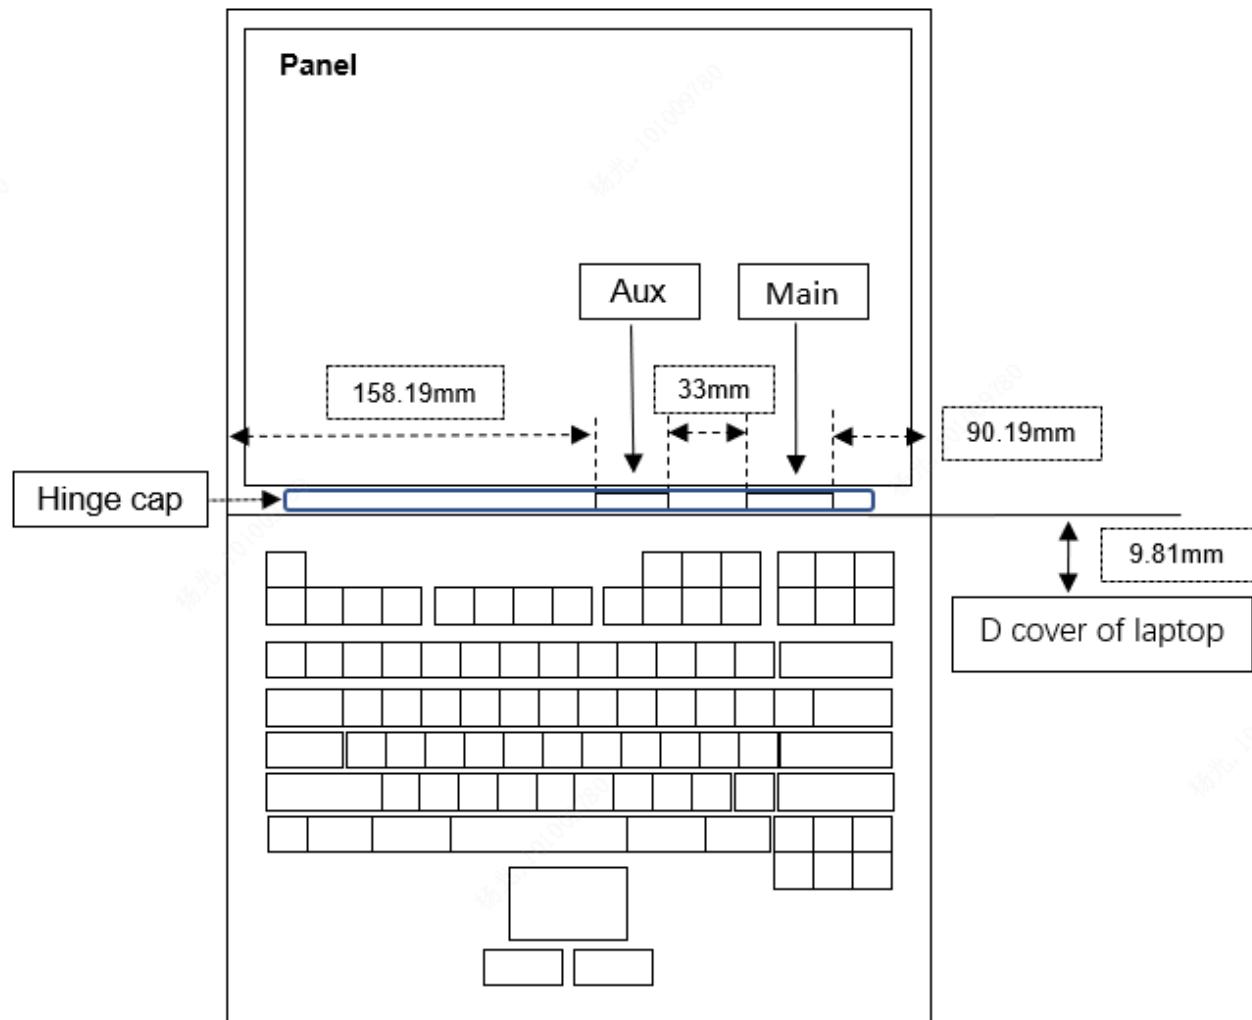

B.2 Antenna dimensional information for SAR evaluation

Include a <u>dimensioned photo(s) or dimensioned drawing(s)</u> showing the distance (mm) between the transmit antennas and the user. For notebook/laptop hosts show lapheld position (example below). For tablet hosts show all orientations including lapheld, primary & secondary portrait, primary & secondary landscape positions. Include a description of any proximity sensors or power throttling implementations that limit or exclude use of any host orientation.
