Re: Request for Confidentiality  
FCC ID: J9CGOBI2000-L  
Applicant: QUALCOMM Incorporated

To whom it may concern,

**Permanent confidentiality request**

Pursuant to the provisions of 47 CFR Section 0.457(d) and 0.459, and Section 552(b)(4) of the Freedom of Information Act, we are requesting the Commission to withhold the following exhibit as confidential document from public disclosure indefinitely:

| <u>File name</u>             | <u>exhibit type</u>     |
|------------------------------|-------------------------|
| Lenovo BIOS Lock Attestation | Operational Description |

Above mentioned document contains detailed system/equipment descriptions and related information about the product in which QUALCOMM Incorporated and Lenovo (Japan) Ltd. consider being proprietary, confidential and a custom design and, otherwise, would not release to the general public. The public disclosure of above document might be harmful to our companies and would give competitors an unfair advantage in the market.

**90 days short-term confidentiality request**

Furthermore, pursuant to Public Notice DA 04-1705 in order to comply with the marketing regulations in 47 CFR §2.803 and the importation rules in 47 CFR §2.1204, QUALCOMM Incorporated and Lenovo (Japan) Ltd. request the following exhibits be withheld from public viewing for a short term limited time of 90 days from the date of the Grant of Equipment Authorization, due to the sensitive business information. The subjected exhibits are:

| <u>File name</u> | <u>exhibit type</u> |
|------------------|---------------------|
| Users Manual     | Users Manual        |

It is our understanding that all measurement test reports, FCC ID label format and correspondence during certification review process cannot be granted as confidential documents and those information will be available for public review once the grant of equipment authorization is issued.

Sincerely,

John Forrester  
Engineer, Senior Staff  
QUALCOMM Incorporated
