

C Annex C- Photographs

Photo C-1 GCK 1410 Car Kit Components

A photograph of a mobile phone connected to a computer via a USB cable. The phone is a black, candy-bar style device with a small screen and a numeric keypad. It is connected to a black USB cable that runs across a wooden desk. Other cables, including a coiled black cable and a yellow cable, are also visible. A black computer mouse is positioned near the phone. In the foreground, a blue ruler is placed horizontally. To the left of the phone, there is a small, light-colored, cone-shaped object. The background is a plain, light-colored wall.
