Dear Helen,

Attached please find the new Test report and Confidentiality request for your questions.  
Please see the new duty cycle plots on the report.  
The star mark "\*" is the unsuitable procedure result after "View" function of R&S FSU46.

Thank you.

Best regards,  
Joe Hsieh

Question #2: The report show some duty cycle plots with red star mark "\*". If it means unstable status, please update the plots.

Question #3: Please correct a typo in the report page 14. it should be  $0.3125(\text{ms}) \times 24 + 1.0337(\text{ms}) \times 5$ .
