Gentlemen:

Spectrum Technology Incorporated has the above identified receivers in accordance with the requirements contained in the CFR 47 Section 15. To the best of my knowledge, these tests were performed using the criteria established in ANSI C63.4, 1992 and demonstrates that the equipment complies with the published standard. The applicable rule sections are listed in the following test report.

The Open Area Test Site used for these measurements is located at Fluke Park II, Everett, Washington. Site information required by Public Notice 24541 in accordance with ANSI C63.4-1992 was filed with the FCC Authorization and Evaluation Division Sampling and Measurements Branch in July 1994 and most recently renewed in February 1998.

Sincerely,

Rod Munro President
