Dear Sir or Madam:

Acting on behalf of Innosys Inc. (Keyspan) and their product Bay Area Compliance Laboratories has made all necessary revisions to Innosys submission: FCC ID JFVKYRF-LDK-1 / TC543789. We have uploaded new Test Report exhibit (Revised Test Report) with revised frequency range information. The original submission listed the incorrect frequency range of 2402 – 2483 MHz; the correct frequency range of the device is 2402 – 2479 MHz. Any and all other information relating to this change has also been revised appropriately. Please supersede the original test report exhibit with the revised test report exhibit. If there are any other questions or concerns in this matter please feel free to contact us at bacl.regulatory@baclcorp.com, have a great day!

Douglas Mendez
Document Control Supervisor
Bay Area Compliance Laboratories Corp.
