Application Examiner  
Reviewing Engineer

Re: Request for confidentiality

Applicant: Mini Mitter

FCC ID: JIAXTP1

To whom it may concern,

Request is hereby submitted by Mini Mitter Co., to withhold from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) of the FCC Rules.

In particular, the following sections of the application are to be kept confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description
- Internal photos

Rationale for request for confidentiality:

Mini Mitter has invested considerable time and materials in research and development to produce the referenced product. We are requesting that the internal photos also be kept confidential, as there are no similar products on the market today. Disclosure of the confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Donna Barton  
RF Design Engineer  
Mini Mitter Co., Inc.
