# G580 FITS

Setup Guide

logitech G

1. Complete molding setup in-app

Ensure completion of setup and eartip molding through the mobile app. Lightspeed audio will not work until mobile setup is completed.
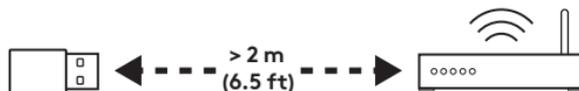

2. Connect via LIGHTSPEED

Insert your wireless receiver dongle into a compatible device. Triple tap either the left or right earbud to connect to LIGHTSPEED.
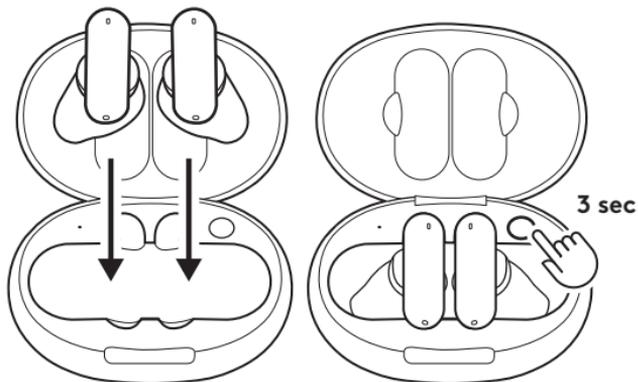

App Name

Router interference

Ensure receiver is at least 2 m away from wifi router.

> 2 m
(6.5 ft)

Pair to your mobile/BT device

Place earbuds into the case, closing, then opening the lid. Press and hold case button for 3 seconds. Select G580 FITS on your device.

Customize G580 FITS

Customize EQ, controls, and other settings through the MOBILE APP NAME while connected via *Bluetooth®*.

Follow the link to download G HUB on your PC to control customize G580 FITS via LIGHTSPEED.
