of Transportation  
**Federal Aviation  
Administration**

800 Independence Ave., SW.  
Washington, DC 20591

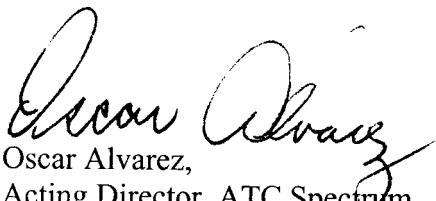

Mr. Andy Leimer  
Federal Communications Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

Dear Mr. Leimer:

The Federal Aviation Administration, Office of ATC Spectrum Engineering Services, has reviewed the Type Acceptance Certification request from Selex Sistemi Integrati, Inc. for their 74.996-75.004 MHz Marker Beacon Transmitter Model 2130, Federal Communications Commission ID number JPAMKR2. The technical data for this equipment was sufficient for review and is consistent with the spectrum requirements for this type of system. Therefore, based on our review of this we have no objections to certification of this device.

Should you have any questions or concerns, please contact Mr. Donald Nellis, Spectrum Planning and International Office, at (202) 267-9779.

Sincerely,

Oscar Alvarez,  
Acting Director, ATC Spectrum  
Engineering Services
