Columbia, MD 21046

Subject: Professional Installation Requirement

Gentlemen:

With regard to the MiniLink Wireless Ethernet System (WES), the following three points apply:

- a) Marketing – These products are sold through an authorized network of security distributors, integrators and dealers only. They are not available through retail outlets or mail order.
- b) Professional Installation – These products require professional installation and must be controlled due to radio frequency power output levels emitted with special consideration given to antenna placement as it relates to human exposure.
- c) Application – Due to the extended range capability of these products, they are intended for use in industrial/commercial environments only. They are not intended for use by the general public in consumer applications.

If you have any questions, please contact us at (949) 297-4930.

Sincerely,

Steve Kuntz
Vice President
