RE: BenQ Corporation  
FCC ID: JVPAWL100

Dear Timothy:

After the review of your comments, we have made some modifications upon your advice; they are summarized as follows:

1. Regarding to the Grantee code changes, it is the essential part as the AcerCM doesn't be granted anymore and thereafter the code will be used by BenQ instead. Thanks for your following-up upon this matter. I'm sure that's made both our client and us feel comfort upon your message.
2. As the product series maybe extended in the future, the diversity enabling the manufacturer to develop a numbers of product based on the similar design. When the new product develops from the diversity in the future, the separate grant will be made while they are ready to be placed in the market.
3. The higher resolution block diagram is uploaded to the server with this correspondence.
4. The compliance sheet regarding to the 2.1077 is already attached in the manual in the page 3. By the way I extract them in a separate file and uploaded.
5. The updated Request for Confidentiality is uploaded. The Operational Description is newly added to the items of Confidentiality to be held.
6. The data of the MPE Exposure is modified and uploaded upon your advices. Please find them out in the attachment.
7. The user manual is also has been made some changes regarding to the distance between the user and the apparatus, filed with the name: "RegulatoryStatement". Please check it out.

Should you have any questions or more information is needed, please don't hesitate to ask us.  
Thank you.

Sincerely yours,  
Eric Wong
