

5.0 ID LABEL AND LOCATION

This section should include the FCC ID label, its location on the product, and any statements required by the rules that will be on the product. For examples and information on FCCID labels see 2.925 and 2.926 of the commissions rules. Some examples of statements required that should go in this section are the 15.19 and 15.214(c) statements.

5.1 Identification Labels and Photographs

This label will be located at two places, inside on the left side-interior of the ITX02-2000 unit, and outside on the bottom surface.
