2. Conducted Test Setup Photo

A photograph showing a mobile phone on a white table, connected by a red cable to a power source on the floor. The power source is a small electronic device, possibly a power supply or a battery pack, connected to a power strip. The floor is covered with a patterned tile. A white power strip is visible on the right side of the image, with several cables plugged into it. A small, square, white vent is mounted on the wall above the power strip.
