Relationship between FCC ID K6KA781-MK3 and EMS Model Identification A781-200

FCC ID: K6KA781-MK3,

Further to your request, this communication clarifies the relationship between EMS's model identification A781-200 and the requested equipment authorization for FCC ID: K6KA781-MK3.

The A781-200 is the EMS marketing identification for the A781-MK3 model as identified in the FAA Request Letter of 4 May 2010, and the FCC Request for Waiver dated April 9, 2010.

The A781-200 is the first of an intended series of Satellite Communications (Satcom) products of the A781-MK3 model which may be marketed under this FCC ID in accordance with CFR Title 47, §2.924. These future products would be subject to the change requirements of §2.924, §2.1043(a) and §2.1043(b).

If you require additional information, please do not hesitate to contact the undersigned.

Sincerely,

A handwritten signature in dark ink, appearing to read "R. Halka". The signature is stylized with a large, looped "R" and a cursive "Halka".

Ron Halka
AME Product Engineer Manager
