

Dear Klaus,

I'm Ellie Cheng, new contact window for TCB in the future.

This product: Belkin Corporation (ID: K7SF5D6051) would like to apply for FCC TCB as change in ID of presently authorized equipment. Please find the attachments for the 731 form and test report. The original FCC ID is PQP-WU221B, our client, PESI, authorized the ID to Belkin, and all the test data is not changed. Thank you.

Best regards,

Ellie
