Hi Gloria,

Please address following issues.

Q#1: Antenna gain used in MIMO mode is not required to be summed by 10log. Please revise the MPE report.

Ans: Pls see the attached "F5D8233-4 Appendix I for MPE revised 0111"

Q#2: Please provide the functional block diagram for RF portion.

Ans:Pls find the attached.

Q#3: Accoring to the block diagram and schematics, this is a 2x3 MIMO router but test report indicates it;s a 2x2 MIMO device. Please explain.

Ans:The client confirmed that it's 2x2 MIMO device.Pls see the revised block diagram and schematics(Pls see the page 6: have 1 RX Not used).

Q#4:Please provide the test result of each fundamental and speify them into the test report since 20dBc down from the fundamental is applied.

Ans:Pls see page 116 ~ 127 on revised report.

Best Regards,

Lucy

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to

the e-mail address listed below the name of the sender.
