Subject: **Class 2 Permissive Change Policy** for FCC ID: [KA336WAN1](#), [KA336WAN2](#)

Dear Sir or Madam:

The purpose of this letter is to confirm that the submission of the KA336WAN1 and KA336WAN2 Class 2 Permissive Change meets the policies and requirements called out in the FCC's Permissive Change Policy document (178919 D01 Permissive Change Policy v04r04).

Our application is based upon meeting all six (6) requirements covering the addition of frequencies specified in Section 4 (Software Changes), Part (a):

- No hardware changes have been made
- There is no increase in output power at the new frequencies
- The equipment class remains the same
- There are no changes to the RF exposure to address
- Solectek is the original equipment manufacturer of this equipment
- There are no other changes that indicate a need for a new FCC ID

Sincerely,

A handwritten signature in black ink, appearing to read "D. Gell". The signature is fluid and cursive, with the first letter of the last name being a large, stylized 'G'.
