Columbia, MD 21046

21-May-08:

SUBJECT: FCC Application for KA336WAN1

To Whom It May Concern:

In accordance with the "Restricted Contention Based Protocol" as specified in FCC 90.1319 and 90.7, Solectek attests the product associated with FCC ID KA336WAN1 to be compliant.

Solectek's product is designed using 802.16-2004 WiMAX standard protocol. The WiMAX protocol, and Solectek's product, provides the following features, as quoted per FCC 90.7:

- "Procedures for initiating a new transmission"
- "procedures for determining the state of the channel"
- "procedures for managing retransmission in the event of a busy channel"

With compliance to the "Restricted Contention Base Protocol" as above, Solectek hereby requests an equipment grant covering the lower 25 MHz of spectrum made available by FCC 90.1319.

Regards,

A handwritten signature in black ink, appearing to read "D. Gell", is written over the "Regards," text.
