Attn: Director of Certification

Regarding Solectek's grant application for FCC ID KA358WAN3, Solectek would like to point out the following:

- The device will be sold through trained resellers. It is not a retail product, nor can it be purchased through mail-order. It is not intended to be used by the general public.
- Solectek has a training program for our resellers.
- Installation requires a site survey requiring sophisticated RF signal analysis tools.
- The device is intended to be radio tower, mast or building rooftop mounted – commercial locations not accessible to the general public.

Best Regards,

A handwritten signature in black ink, appearing to read "D. Gell". The signature is fluid and cursive, with the first letter of the last name being a large, stylized 'G'.

David Gell
