[seriously... you'll thank us later...]

Thank you for purchasing a PocketWizard radio slave, the most advanced photographic wireless control system available. To get the most out of your new radio, please spend time on **PocketWizard.com/support** where you will find information on all aspects of your new PocketWizard radio slave.

DOWNLOAD UTILITY:

Your new PocketWizard radio runs on powerful software we call ControlTL® (Control The Light™) which can be configured to your specific needs using the PocketWizard Utility. You can download this utility from **PocketWizard.com/support/downloads**.

UPDATE FIRMWARE:

Be sure ALL your PocketWizard ControlTL radios, including this one, are updated to the latest firmware for proper functionality. This can be done via the PocketWizard Utility.

REGISTER ONLINE:

ControlTL software is designed to be "Future Proof" and will be upgraded from time-to-time. Please register your product by going to **PocketWizard.com/support/register** and you will be notified when updates are available.

PocketWizard®

The FCC wants you to know:

WARNING

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and the receiver.
3. Consult the dealer or an experienced radio or television technician for help.

This device complies with Part 15 of the FCC rules and also with RSS-210 of Industry Canada. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
