This image shows the internal components of a handheld device. A large, dark LCD screen is mounted in the upper half. Below the screen, a green ribbon cable connects it to the main printed circuit board (PCB). The PCB is populated with various electronic components, including integrated circuits, capacitors, and a battery connector. A yellow circular sticker with the text "TEST OK" is visible on the PCB. The device is housed in a black plastic casing, and the background is a solid blue surface.
