RE:

Dear Sir:

We submit this Class 2 Permissive change application to add additional antennas for use on the LXE Transceiver Model 4810P3S01US. The transceiver is 900MHz Frequency Hopping Spread Spectrum device approved under 15.247 of the rules.

Please note that on the form 731 application form, the output power is incorrectly noted as 250 Watts. The actual output power of the device is 250 mW.

Sincerely,

R. Sam Wismer  
RF Approvals Engineer  
LXE, Inc.
