RE: KDZLXE4830P

Dear Sir or Madam:

The following letter is a declaration of the submittal of a Class II permissive change to add a pre-certified Bluetooth module (**FCC ID: LUBCFBC04-1**) to the existing authorization of **KDZLXE4830P**. The products (VX6, VX7, MX3X, VX3X) encompass two co-located transmitters and LXE is attempting to add the bluetooth module to the current 802.11b/g authorization. New radiated testing was completed to show compliance to the rules with the transmitters in a co-located environment operating in the representative worst case products.

A SAR test evaluation has been completed for the MX3X with both transmitters in a co-located environment

A confidentiality request is requested for all schematics, block diagrams related to this Class II permissive change.

Sincerely,

A handwritten signature in blue ink, appearing to read "Cyril A. Binnom Jr.", with a stylized flourish at the end.

Cyril A. Binnom Jr.
Approvals Engineer
LXE, Inc.
