Programming of radio module per FCC channels

LXE programs the radio module to only operate between the channels 1 through 11 per FCC and Industry Canada regulations. The radio is programmed with a special tool that is not provided to the end-user. The end-user **cannot** reprogrammed the module to operate at the additional channels / frequencies that are not covered by this application.

Certified By:

A handwritten signature in blue ink, appearing to read 'Cyril Binnom', with a period at the end.
