Re: FCC ID: KDZLXEBLUE

To Whom It May Concern:

The following application is submitted on behalf of our client, LXE Inc., for evaluation of their device, FCC ID: KDZLXEBLUE, for a class II permissive change under FCC Part 2.932 and 2.1043.

The purpose of this application is to address the co-location of this device with FCC ID: TWG-SDCPE15N in the LXE, Inc. host models VX8 Terminal and VX9 Terminal. Models VX8 Terminal and VX9 Terminal are rugged Vehicle Mount PC-compatible computers.

FCC ID: KDZLXEBLUE can transmit simultaneously with FCC ID: TWG-SDCPE15N therefore the combination was evaluated for radiated intermodulation products and found to be in compliance. RF exposure due to co-location was also addressed in this application with details presented in the enclosed RF exposure exhibit.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
