RE: Wai Hang Electronic Co., Ltd.

FCC ID: KHK88001205

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Kindly supply an exact label artwork drawing for this device as it shall be labeled for sale.
- 2.) FYI: There is an incorrect interpretation of the permissible limits for spurious emissions for this device. Whenever the Restricted Band emission limits are higher than the limits as applied in any specific Intentional Radiator section, the stricter limits will apply. For this case, all spurious emissions must meet the 52.8dBuV average limit, and not the limits shown in 15.205. This does not appear to change the pass/fail radiated emissions criteria, but should be changed for clarity. .

William H. Graff

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
