

The image consists of two side-by-side photographs of a cylindrical metal component. The left photograph shows the front face of the cylinder, which is a light-colored metal. It features a rectangular slot in the center and a small circular hole to its left. The right photograph shows the back face of the cylinder, which is a darker metal. It has a central hole and a yellow circular label with text. The label contains the text "704" and "22" in a circular arrangement.
