BATTERY COMPARTMENT: - Accommodates three 1.5V AAA-size batteries
CARRYING BAG: - For protecting and carrying the unit around

BATTERY INSTALLATION

Each unit uses four 1.5V AAA-size or UM-4 batteries, which are not included with the product. To insert the batteries,

1. Slide open the battery compartment door at the back of the unit.
2. Insert the batteries strictly according to the polarities shown therein.

MANI INDUSTRIES LIMITED

30/F. Wharf Cable Tower, 9 Hoi Shing Road, Tsuen Wan, Hong Kong.
Telephone: (852) 2416 4499

Facsimile: (852) 2417 4455, (852) 2417 4747

3. Replace the battery compartment door.

The life span of batteries varies with the types of batteries and conditions under which the unit is used. Alkaline batteries are recommended for longer operating hours. Change batteries when there is a significant drop in effective range or quality of transmission.

ANTENNA AND EARPIECE INSTALLATION

Connect the antenna to the antenna connector. If you want to use the earpiece, connect it to the earpiece connector. You can secure the earpiece with the pocket clip.

HOW TO TURN ON OR OFF THE UNIT

Turn the POWER/OUTPUT VOLUME until the power indicator lights up. Turn the unit off when

HOW TO SELECT A CHANNEL

This product supports five channels. Use the channel selector to locate the channel for best

HOW TO TRANSMIT MANUALLY

Press and hold the PTT switch. Speak clearly into the microphone. Release the PTT switch when

HOW TO VOICE-ACTIVATE A TRANSMISSION

Slide the VOX switch to ON. Speak clearly into the microphone. Transmission will be activated automatically. The unit will return to standby mode when the transmission is complete.

HOW TO RECEIVE A MESSAGE

The incoming message will be broadcast through the microphone automatically when the unit is turned on. Use the POWER/OUTPUT VOLUME switch to adjust the loudness of the message. Note that when the earpiece is inserted, the microphone will be muted and the incoming message will be broadcast through the earpiece.

HOW TO ACTIVATE EMERGENCY TRANSMISSION

Slide the HELP switch to ON. The unit will automatically transmit an emergency beeping to the remote unit. To stop it, slide the switch to OFF.

HOW TO ADJUST MICROPHONE SENSITIVITY

When the VOX switch is turned ON, THE MIC SEN switch can be used to adjust the pitch of the outgoing message for different users. Select the pitch that allows best transmission.

HOW TO USE THE CARRYING BAG

The carrying bag is for protecting and carrying the unit around. It comes with a velcro strap that can be adjusted to fit the shoulder or thigh.
