

Operational Description of the equipment

The EUT is a direct replacement to the 3-Way Incandescent Bulbs.

They are self-ballasted, screw-in Compact Fluorescent Lamps, to be used in the 3-Way sockets, driven by a 3-Way switch, primarily on the Table Lamp and Floor Lamp applications.

The applications, by the nature of the 3-way switch operation, require an easy access by hand, in order to perform the sequential switching of the 3 Light Levels.

PRODUCT	Energy Saving Lamp
MODEL NO.	SE-18T, SE-23T, SE-27T
POWER SUPPLY	120Vac/60Hz
CABLE	N/A
WORKING FREQUENCY	43 kHz
OUTPUT	18W, 23W, 27W
