

FCC Class II Permissive Change

Date: 2024-09-18

To: Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046-1609

Request for Class II Permissive Change

To Whom It May Concern:

The purpose of this letter is to request a Class II permissive change for the existing grant of certification FCC ID: KSN-52805ND02. The equipment modifications covered by this Class II permissive change are the following:

4. RF output power setting is lowered from 0dBm (original) to -4dBm (this application).
5. Minor change of exterior design
6. Minor component changes on the PCB for blood pressure monitoring function that is not part of the radio transmitter:
 - Added a user switching bottom

Sincerely,

By:
