

ID Label / Label Location

Naída CI Connect

Pursuant to §2.925 of 47 C.F.R. the model Naída CI Connect, which is the object of this filing, shall bear a permanently affixed, readily visible label listing the information as specified in §2.926 and §15.19(a) of 47 C.F.R. Due to the specific use of this product, its external surface is in a permanent contact with the skin behind the ear. Therefore, it is not appropriate to permanently affix a label on the outer surface of the device which is in contact with the skin in order to prevent any possible skin irritations. The only possible place where the FCC ID and the serial number of the device can be put is the short side of the battery compartment of the attached hearing aid, which is with a surface smaller than 15mm x 4mm.. However, in this case the size of the FCC ID will be smaller than 2 points, which does not satisfy the requirements for "readily visible" label as defined in §2.925(d)(2) and §2.925(g).

Therefore, due to the very small size of the device and pursuant to paragraph §15.19(a)(5) of 47 C.F.R., the FCC ID and the statement specified in §15.19(a)(3) are placed in the Compliance Information section of the User manual as shown in the example below:

Naída CI Connect – brand and product name are placed on the short side of the battery compartment.

14. Compliance information

Europe:

Hereby Sonova AG declares that this product meets the requirements of the Medical Devices Directive 93/42/EEC as well as the Radio Equipment Directive 2014/53/EU. The full text of the EU Declaration of Conformity can be obtained from the manufacturer or the local Phonak representative whose address can be taken from the list on www.phonak.com (Phonak worldwide locations).

Australia/New Zealand:

Indicates a device's compliance with applicable Radio Spectrum Management's (RSM) and Australian Communications and Media Authority (ACMA) regulatory arrangements for the legal sale in New Zealand and Australia.

The compliance label R-NZ is for radio products supplied in the New Zealand market under conformity level A1.

Naída CI Connect is certified under:

USA FCC ID: KWCNCC

Canada IC: 2262A-NCC

22

Notice 1:

This device complies with Part 15 of the FCC Rules and with Industry Canada's license exempt RSS standard(s). Operation is subject to the following two conditions:

- 1) this device may not cause interference, and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

Notice 2:

The device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules and ICES-003 of Industry Canada. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The device generates uses and can radiate radio frequency energy and, if not installed and used in accordance of the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the device does cause harmful

23

interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Notice 3:

Changes or modifications made to this device not expressly approved by Sonova AG may void the FCC authorization to operate this device.

Notice 4:

FCC / Industry Canada RF Radiation Exposure Statement.
This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
