

FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON, D.C. 20554

SEP 1 1994

IN REPLY REFER TO:

31030/EQU/4-2-4  
1300B4

Mr. Valdis V. Liepa  
University of Michigan  
Radiation Laboratory  
NASA/Center for Space Terahertz Technology  
3228 EECS Building  
Ann Arbor, MI 48109-2122

Dear Mr. Liepa:

This is in reply to your facsimile transmission of August 2, 1994, regarding the labelling of a low power communication device that will be marketed within the U.S. and Canada. You request approval to combine the labels for both countries, permitting a single label to be employed. As indicated, this combined label would read as follows:

"This device complies with Part 15 of the FCC Rules and with RSS-210 of the Industry Canada. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."

According to Section 15.19(a) of our rules, a low power communications device operating under Part 15 must be labelled with the specific statement contained in paragraph (a)(3). The only difference between the statement required under our rules and your proposed statement is the addition in the first sentence of the phrase "... and with RSS-210 of the Industry Canada."

I note that Kwai Lum of Industry Canada, in a facsimile to you on August 3, 1994, has already given permission to use this combined label. I also agree that the use of this combined label, as shown above, is acceptable under our regulations. This label conveys the desired information and is essentially identical to our requirement. As expressed by Mr. Lum, text denoting compliance with the standards for both countries was not stated in our rules as "it would be too presumptuous [to assume] that all products are for both markets."

I trust that the above responds to your inquiry. Additional questions should be directed to John Reed, 1300B4, at the address on the letterhead or at (202) 653-7313.

Sincerely,

  
John Reed

Our Ref : DGEP-5630-1 (RSS-210 Labelling)

This is to respond to your fax of August 1, 94 requesting that we permit a combined statement for FCC and Industry Canada on the equipment labels.

We wish to assure you that your suggested combined label that you submitted in your fax is acceptable to Canada since our standard (section 5.8 of RSS-210) allows (to quote) ".....equivalent statement....".

We have made our labelling statement as close as we can to Part 15.19(3); the differences are : we left out the word "harmful" because of difficulties in defining what is harmful. We added the phrase "of the device" to remove any possible misunderstanding.

To re-capitulate, although your proposed statement uses FCC text except for the mention of "RSS-210 of Industry Canada", we consider it to be equivalent. Our preferred text is per RSS-210; the next best is to add the word "harmful" to meet FCC requirements.

Since FCC and Industry Canada are from different countries, we do not consider it necessary to state in our separate standards a combined text. In any case it would be too presumptuous that all products are for both markets.

Our equipment certification staff will be informed of the above. We will also copy this to Mr Reed of the FCC since you said that you sent a similar fax to him.

Regards,

Kwai Lum

cc Mr John Reed (FCC OET fax 202-653-8773).  
 cc R. Corey (Equipment Certification).

Re: Certification for Yazaki Transmitter  
PN: 3544938c2  
Model: 2001 NGV  
FCC ID: KYPNAV01TX1  
CANADA: to be provided by IC

**POWER OF ATTORNEY**

A letter granting Valdis V. Liepa the Power of Attorney is on file and can be provided when so requested.

## Navistar RKE Transmitter

Yazaki P/N: 3817900-280  
Navistar P/N: 3544938c2

**FCC ID: KYPNAV01TX1**  
**CANADA:-----**

The Navistar RKE transmitter (Yazaki P/N: 3817900-280), for which a certification is pursued operates at 315 MHz +/- 250 kHz and has been **designed** by:

**Yazaki North America, Inc.**  
EIS Department  
6801 Haggerty Rd.  
Canton, Michigan  
**Phone: (734) 983-1000**  
**Fax: (734)983-2475**

- **Fawaz Baltaji**, Principal Engineer, Wireless Technology
- **Kevin Pimlott**, Executive Chief Engineer, EIS

The Navistar RKE transmitter (Yazaki P/N: 3817900-280) will be **manufactured** at the following location:

**Nacom Corporation**  
1495 Kalamazoo Drive  
Griffin, Georgia 30233

**Phone: (770) 412-1001**  
**Fax: (770) 412-0111**

- **Sam Nwogwugwu**, Manager, Production Control
- **Gina Tardy**, Quality Control
